LUXURY KITCHEN FITTINGS  
SINKS AND TAPWARE

BLANCO SILGRANIT™ PURADUR™ II

# DESIGNED TO LAST.

The composite kitchen sinks contain 80% quartz sand, which is the hardest element of granite. Thanks to its excellent components SILGRANIT® PuraDur® offers an easy care and level of resistance that has never been offered before for coloured composite sinks.

**Scratch resistant.**

**100% safe for food preparation.**

**Easy cleaning.**

**Heat resistant up to 280°.**

**100% non-fading material.**

**Repels water, preventing deposits.**

**NEW!**

FUNCTIONALITY AT EVERY STEP. NEW 3 TIER SINK SYSTEM.

# BLANCO ETAGON SINK

Thanks to the ETAGON rails, a baking sheet can be completely immersed.

The staggered bowl for added versatility - one bowl, three levels!

The perfect spot for drying and storing washing-up utensils.

Heat resistant ETAGON rails can be used as trivets.

BLANCO SILGRANIT™ PURADUR™ II **NEW COLOUR**

# Rock Grey

Match shades or create an exciting contrast to the worktop and the kitchen environment. Create tasteful colour combinations of sink, worktop and tap. The right combination of sink and mixer tap creates an ambience that matches any home living style.

**Our new colour Rock Grey is available throughout the full range of Blanco SILGRANIT™ sinkware.**

NEW!

PERFECTLY INTEGRATED DRAIN SYSTEM.

# BLANCO

## INFINO™

**InFino™ is the innovative outflow concept** for all Blanco sink materials.

The bold contemporary design adds to the sinks looks as well as adding a new value to the sink centre. InFino™ can be dismantled into only two components for easy cleaning: the plug in the outlet and the strainer. The almost flush integration with no irritating rims or edges also helps to make cleaning easier. In the manual version, the outflow is opened and closed by turning the control button to the right or left. In contrast to other up-and-down principles, this does not change the position of the strainer, and the perfect looks of the sink centre are always maintained.

The basket strainer is always in a precise eccentric position, and always flushmount whatever the function.

**Unique control comfort** thanks to intuitive turning.

**Optionally with pop-up remote control.** The remote controlled version may be fitted at any time.

**For reliable hygiene** dismantles into two components.

**Particularly easy to clean** thanks to the design which is almost entirely without joints and edges.

STAINLESS STEEL SINKS FIT IN ANY KITCHEN.

# BLANCO STAINLESS STEEL

## WHY BLANCO STAINLESS STEEL SINKS? THE ANSWER IS SIMPLE.

BLANCO stainless steel sinks are constructed to the highest manufacturing standard in the world, and use only premium grade steel made to their own demanding specifications. BLANCO stainless steel sinks feature a Satin Polished Finish which is the result of an extensive polishing process that creates an extremely consistent and luxurious appearance. This signature finish features the smoothest, most hygienic and easiest-to-clean stainless steel surface available today.

**BLANCO stainless steel sinks are simply the best that can be made.  
The difference is in every detail.**

# IDEAS FOR LIVING

[www.ideasforliving.co.nz](http://www.ideasforliving.co.nz)

There are a few things that light me up in my work and in design generally. Obviously aesthetics are a huge attraction, but ever since designing my first kitchen I have been enamoured with anything that surprises with its functionality. Real 'James Bond' stuff where televisions are revealed out of cabinets or doors seamlessly glide over the face of their neighbouring panels. Anything that adds functionality, but in a really considered and surprising way, was what I have always wanted to know about.

Now to be working with the world leader in this type of technology for the home - from kitchens to cupboards, wardrobes to entertainment area - I feel grateful that I now have the inside info on all of the latest and coolest fittings for designers and home owners alike, and I can share them - now, with you.

For more information visit our website.
