

HÄFELE'S OWN ENGINEERED AND MANUFACTURED PRODUCTS

Engineered by Häfele

6 CONTINENTS

38 SUBSIDIARIES

8,100+ EMPLOYEES

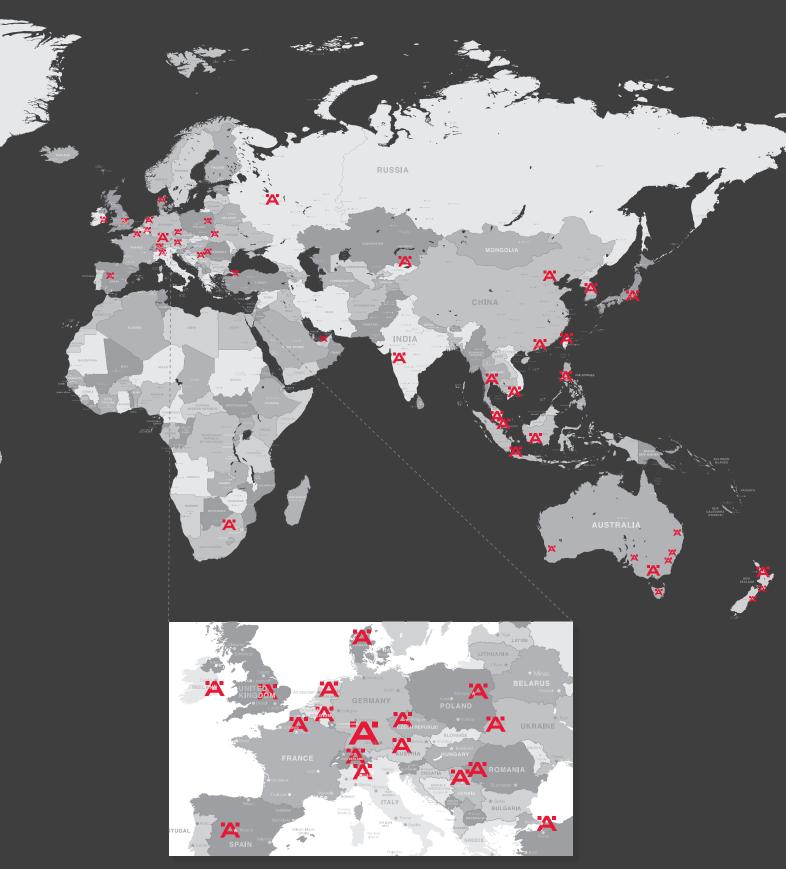

At your side worldwide.

Häfele is the world-leading supplier for furniture fittings and architectural hardware as well as products for hardware related markets. Established in 1923 in Nagold, Germany, Häfele is a family run Company in its third generation.

With presence in over 150 countries, we have over 8100 employees, carrying 150,000 products and 9 manufactured brands.

Engineered by Häfele.

Häfele brands are a promise to the industry. Customers know what to expect.

To further strengthen our ongoing partnership with the furniture industry we established Häfele Engineering. Häfele Engineering is exclusively dedicated to the needs of the furniture industry - fulfilling every step in the value chain. The Häfele Engineering team works at the interface between development and production of hardware technology and the design and manufacture of new or existing furniture ranges. This commitment and our eight industrial brands allow us to offer first class products and services. Most of the exclusive Häfele branded products are manufactured in our plants and the well recognized 'Made in Germany' applies to many of them.

Our In-House Brands.

ixconnect

Connector systems for furniture construction.

MATRIX

Modular drawer and runner systems for all applications.

L1ft+Turn

Free Family Flap Fittings.

Sophisticated Access control electronic RFID locking systems.

$AXILO^{TM}$

<u>SLIDO</u>,

Sliding door systems for furniture, domestic and commercial applications.

H SERIES HANDLES

Complete designer range of handles for kitchens and furniture.

Components of our LOOX range is manufactured at **Nimbus Group - Stuttgart, Germany.**

The LED lighting system for furniture and rooms.

We have spent about 100,000 hours working with LED lights, we have developed and researched, we have had many valuable discussions with partners and customers – and we have learned a great deal.

The result after four generations of Loox LED lights is therefore not simply further development, but a new level. Our development has accelerated. Because the world is accelerating, and the demands of our customers are growing at an equally rapid rate.

HAFELE

Colour codes ensure intuitive connections.

The colour coded plug connectors allow a safe alignment of components belonging together and thus a simple plug-and-play system.

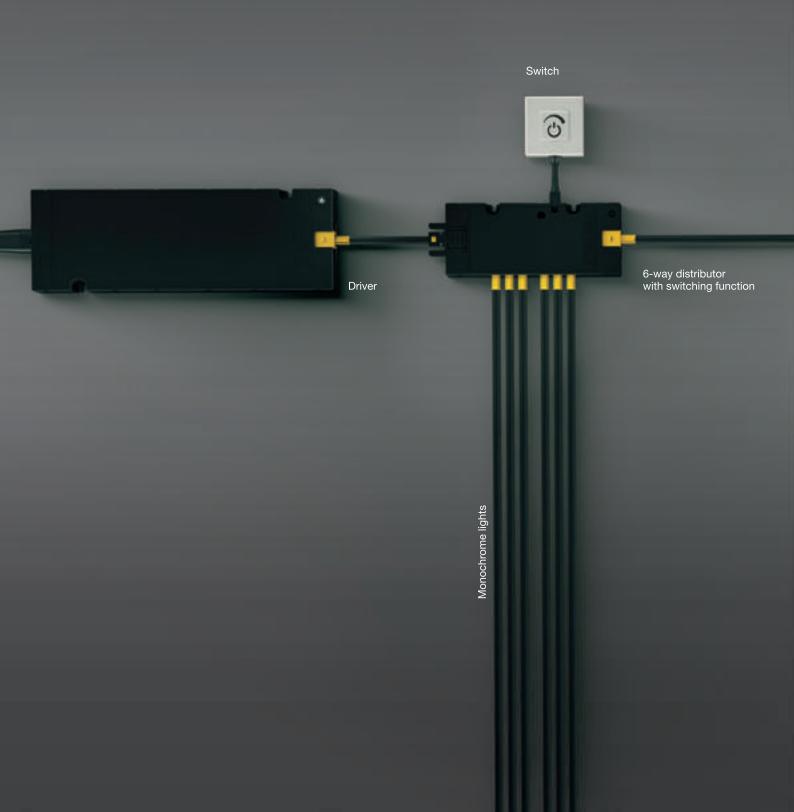

Loox5 Supplying.

Output current 5 A. Suitable for longer installation routes. Engineered by Häfele.

Illuminating.

Equipped with high-quality LEDs made by Samsung.

Häfele Connect Mesh push button, wall mounted

Push button, wall mounted External product

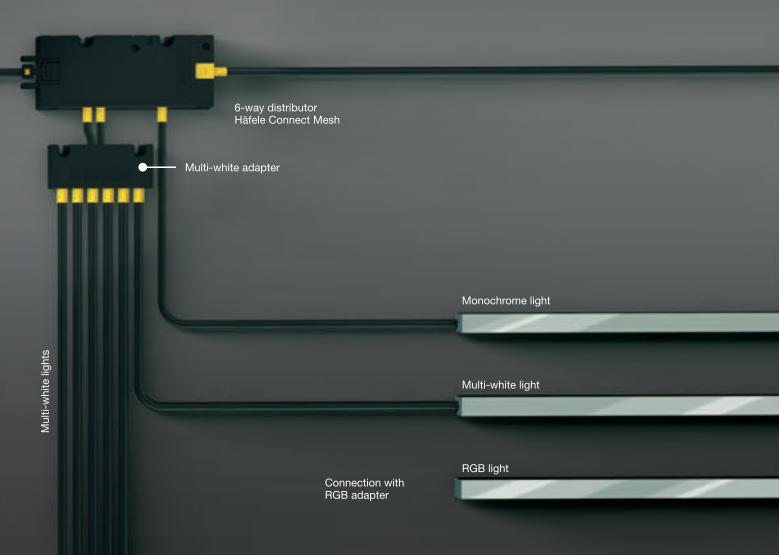

Networking via Häfele Connect Mesh 2-channel

Häfele Connect Mesh App

Häfele Connect Mesh remote control

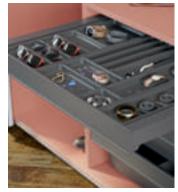

DRESSCODE WARDROBE SYSTEM

A perfect wardrobe is as individual as you are.

A place for everything and everything in its place. DressCode offers a complete range of add-on fittings and yet everything blends seamlessly. A beautiful combination of design and function.

A uniform system to perfectly equip your wardrobe. Dresscode is an easy and fast mounting storage system for use with its own free standing aluminium frames or traditionally constructed cabinetry for walk-in wardrobes, shelf systems or displays. This extremely stable frame can be used individually or for customised solutions. Choose from a vast array of simple metal shelves or functional fittings that allow a clear overview of the contents of your wardrobe or shelving and save time through clever organisation. All with a stylish design.

Our Free flap fitting range is manufactured in our Flap Competence Centre, Budapest - Germany.

FREE FAMILY FLAP FITTINGS

Lighter, slimmer, easier flap fittings.

Optimal use of space, whisper-quiet damping, perfect coordination with every front: we ensure that you get exactly the flap hinge or hinge system that is ideally matched to your products and processes - with access secured or with an electric drive if you wish.

With the Free family, Häfele is further developing its expertise that has grown over the years. Our quality standards could only be met with an in-house development, the Häfele Free flap range.

Lighter

Minimal effort to open. Even heavy flaps up to 15 kg can be moved as light as a feather. Smooth running and closing properties.

Slimmer

Intelligent kinematics and optimized movement geometry of the hardware parts make narrow and more restrained shapes possible - and thus modern, more reduced design solutions.

Easier

Very quick and efficient assembly. Plug-in pins and pre-mounted Euro screws make one-hand assembly possible.

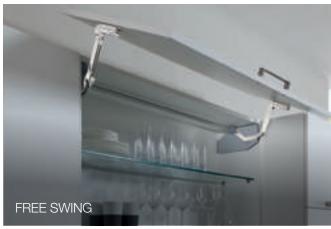

HAFELE

Our Matrix P drawer range is manufactured in our Anton Schneider **Kenzingen Production Plant - Germany.**

MATRIX DRAWER SYSTEMS

The elegant and streamlined drawer system.

MATRIX Box Drawers

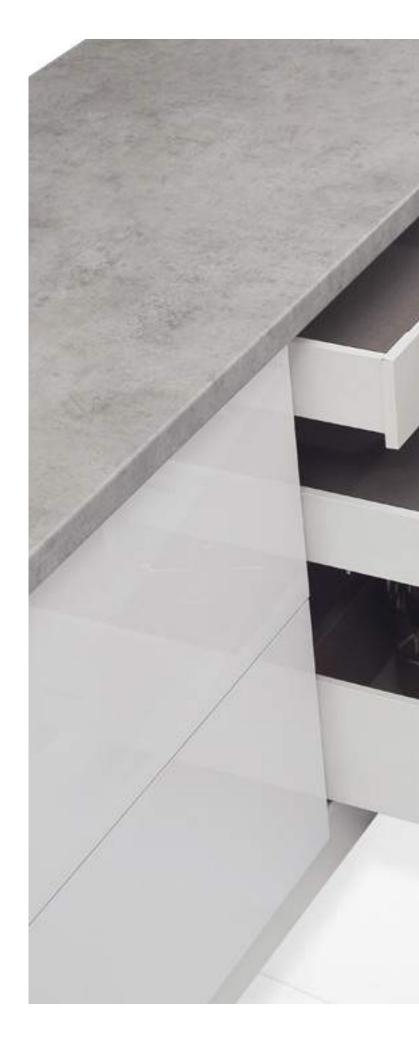

The Häfele MATRIX BOX drawer is a double-walled powder-coated steel drawer system, which has 30kg load capacity and full extension runners with integrated soft-close. MATRIX BOX drawer has been independently tested and passed the European DIN EN 15338 level 3 standards. This was achieved with a full 30kg weight capacity over 60,000 opening and closing cycles.

MATRIX Pro Medical

The Häfele drawer for Healthcare practices and Laboratories. The practical prefabricated drawer made from powder-coated steel saves on the board material as well as the processing of the drawer, thus saving valuable time and costs. In other words: no base, no rear panel, no assembly required – simply fit the front panel. The MATRIX PRO MEDICAL drawer system allows low front panel heights from 61mm, so more drawers can fit into the cabinet. The low base height of just 1mm makes perfect use of the entire space.

HXFELE

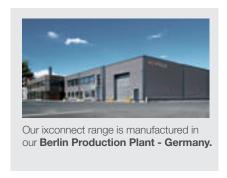

ixconnect

Our next generation connector system.

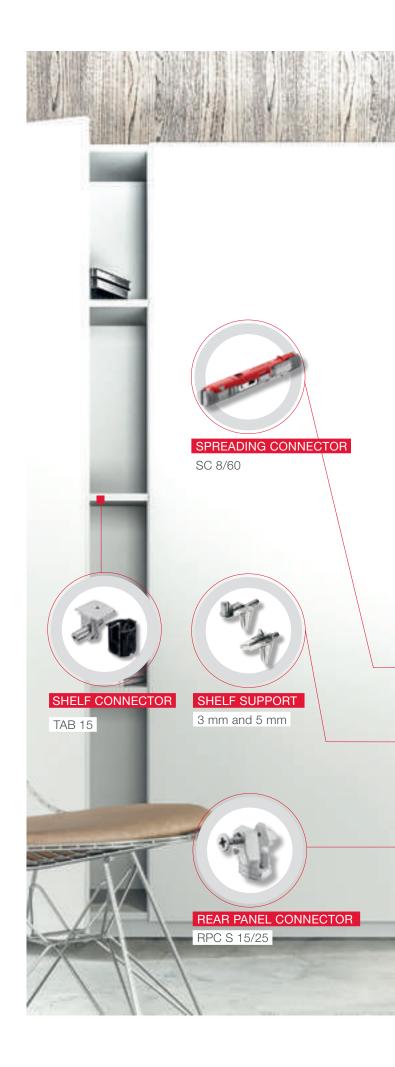

Ixconnect easiness connectors are the ingenious solution for anyone who designs, manufactures and installs furniture. The latest generation of our connector system is almost invisible, and more functional and easier to use than ever before.

These little "Facilitators" do not only highlight the design, they also facilitate manufacturing. They make furniture assembly and installation more convenient and more efficient.

With the world's most comprehensive selection of connectors, we are the ideal innovative development partner for all furniture manufacturers and installers. Our promise is based on this expertise: "Easiness. Engineered by Häfele".

HÄFELE HANDLE COLLECTION

Beauty you can touch: handles that make the difference.

Sometimes the finishing touches are overlooked, when really they should be given as much time and consideration as the furniture style itself. After all, a different style can completely change the look of a room.

With this in mind we have designed and sourced innovative and fresh products to offer an exciting assortment of diverse handles, without compromising on quality. Our range takes you from an iconic, bold, modern look right through to a beautiful vintage antique finish, and everything in between.

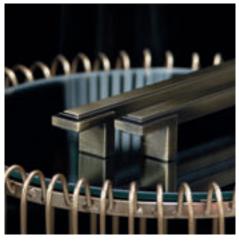

HXFELE

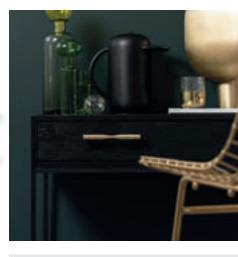

StarTec - All A Door Needs.

StarTec is Häfele's own range of hardware products including handles and accessories, hinges, glass door fittings, overhead closers, door controls, locks and latches suitable for domestic and commercial projects.

This collection has always been synonymous with innovation and functionality. Now Häfele is offering an extended assortment of superior finishes within the collection. The StarTec Designer Series now boasts 5 superb finishes to choose from; Satin Stainless Steel, Polished Stainless Steel, Satin Brass, Antique Brass and Graphite Black. These finishes are available in a range of 7 superior quality lever designs, a choice to suit any project. Each finish will also offer a complete solution with matching escutcheon, door stop, hinges and door closer.

The StarTec Designer Series lever range by Häfele is supported by a comprehensive 10 year warranty. This confirms our trust in the quality and function of this exciting new development.

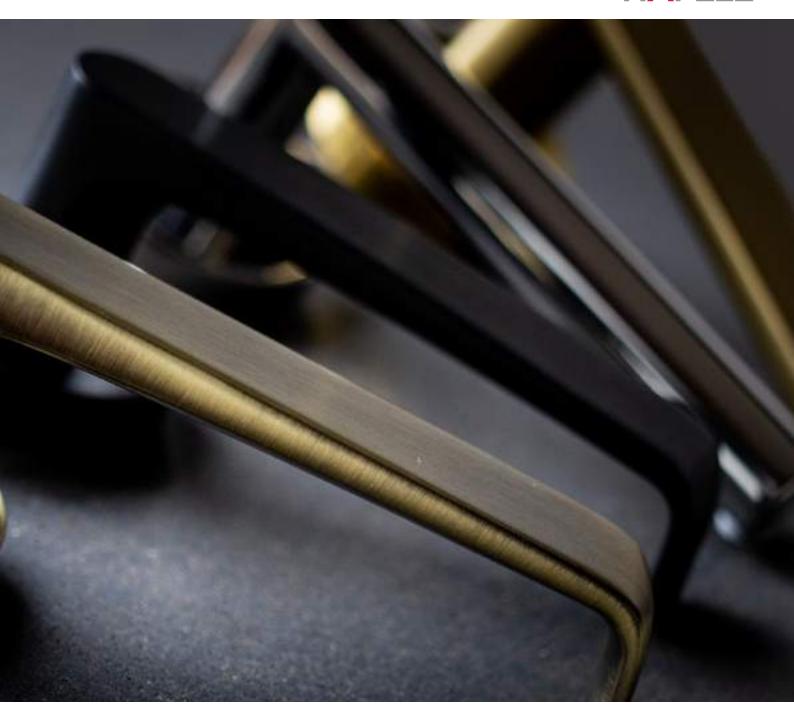

Our SLIDO wall systems are manufactured in our **Anton Schneider Production Plant - Jettingen, Germany.**

<u>SLIDO</u>,

SLIDO innovative wall systems.

Häfele brings you the advantage of 'space-efficiency' with our range of Slido Wall high-performance acoustic moveable wall systems.

Häfele's Slido Wall systems are backed by 50 years of European experience and leadership in manufacturing proficiency. Flexible space saving solutions for hotels and leisure facilities, schools and universities, conference centres, retail environments, offices and commercial spaces. Our strength is to deliver customised solutions that are supported by standardised high-quality and function.

HXFELE

AXILOTM

HÄFELE AXILO™ plinth adjusting fitting system - easy, convenient, efficient.

AXILO™ by Häfele is a new, revolutionary plinth adjusting fitting system. The combination of the adjusting tool and the plinth adjusting foot makes levelling a kitchen or a furniture item a simple, comfortable operation.

BENEFITS OF USING AXILO™

Easy cabinet levelling with just a few manual operations.

Ergonomic and back-friendly installation.

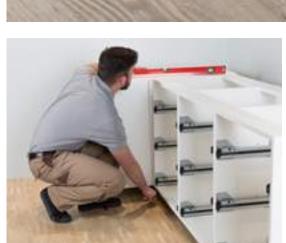

Time saving of up to 50% during kitchen or furniture assembly.

Large area of application for plinth heights from 50 to 220 mm.

ENGINEERED BY **HXFELE**

Our DIALOCK access control systems are manufactured at **Sphinx Electronics** - **Kenzingen, Germany**

Intelligent access management - networked, contactless and reliable.

The Dialock electronic access control system, a Häfele own house assortment, works using contactless transponder technology. Convenient and secure in hotel projects of any size. All over the world, hotels and resorts benefit from the special advantages of this system, which has been tried and tested on many occasions.

From the entrance door to the guest room door, to cabinet solutions and coffee machines. The battery-operated DT door terminals, which can now also be operated with a smartphone key, and which have a mechanical emergency opening, are perfect for easy locking and unlocking of guest room doors and interior doors. A selection of WT wall terminals is available for heavily frequented interior and external doors, automatic doors, turnstiles, lifts and machines. The power is supplied from the mains.

At a glance: All of the data for your planning

All information about the product is organised in an easily accessible way. You will also find other data which you require for planning: CAD and CAM data, photo galleries, service documents, installation instructions, ordering assistance, accessory references and much more – including the links to the relevant downloads. Every page of product details is designed in the same way, meaning you will easily manage in an intuitive way. This makes your digital furniture planning process easier and more reliable.

Mobile friendly for on the go.

www.hafele.co.nz is 100% mobile friendly so you can check the status of orders, account balances and product info from your mobile device - wherever you may be ... 24/7.

Quick and easy.Product search.

Searching, finding and navigating have become more interactive and intuitive. You enter the required properties quickly and easily in accordance with your planning logic. The first recommendations arrive before you've finished entering the information. The more characteristics you enter, the more specific the recommendations will be. Images are also provided. You can also use intelligent filters to narrow down the selection (additionally or alternatively). You receive an overview with several alternative products, and can conveniently select and compare.

Personal Account. Maximum convenience

The "My Account" area is an active overview that allows you to find and order products more quickly. You can search through a well-organised list overview of previous orders that you have made using a keyword or a filter and re-order items. A personal top 100 list shows the items that you have ordered most frequently – with a direct link to the shopping basket. You can create stock lists or create collections of items for projects, furniture items and the like using any number of wish lists. For current orders you can view details of which products in which package are on their way to you. Tangible help during everyday work.

Häfele Production and Distribution.

Häfele has a number of production and manufacturing facilities throughout Germany and other parts of the world.

Sphinx Electronics GMBH & Co KG Kenzingen, Germany

The home of Dialock

Sphinx Electronics has been part of the **Häfele** Group since 1998. It is the company responsible for developing and producing the **Dialock** electronic locking and access control systems.

Häfele Berlin GMBH & Co KG Berlin, Germany

The home of ixConnect

Häfele Berlin primarily produces connecting fittings for the international furniture industry.

We feel that our pioneering role in connector technology means we have certain obligations. So we not only offer a huge range of connectors, we are also constantly creating new solutions to enable quick and easy assembly of your furniture while also giving your living atmosphere that special something.

Anton Schneider GMBH & Co KG **Jettingen, Germany**

The home of SLIDO

Here we produce our ironing boards, both drawer mounted and wall mounted, SLIDO, BETTLIFT along with DRESSCODE wardrobe system. We also produce Pharmaorg which is a system for pharmacies in Europe.

In the **Häfele Jettingen** plant, functional fittings, desking systems, sliding door fittings and special fittings and customised fitting solutions are developed and manufactured in medium and small series for furniture and projects.

The home of MATRIX Drawers

In the Häfele Schneider plant, functional fittings, desking systems, sliding door fittings and special fittings and customised fitting solutions are developed and manufactured in medium and small series for furniture and projects.

Flap Competence Centre **Budapest, Hungary**

The home of FREE Family

Häfele jointly took over the Huwil ProduktionsgesellschaftKFT in Budapest 2009 with Kesseböhmer, including the business segment of flap fittings. In 2014 Huwil is renamed Flap Competence Centre Kft.

Nimbus Group GmbH Stuttgart, Germany

The home of LOOX lighting

Nimbus places great importance on inhouse product development. Internal specialists are responsible for lighting and acoustic design, especially for room acoustics measurements. Since 2006 the company has realised around 15,000 LED projects and fitted out a large number of buildings with its Rossoacoustic systems.
