

iMove

THE INTELLIGENT PULL-DOWN SYSTEM FOR WALL UNITS.

Everything in easy reach.

INTELLIGENT MOVEMENT.

A pull-down system that floats the contents of your wall unit gently down into easy reach. Operate it one-handed.

The iMove and all its contents are pulled downwards and outwards in one effortless movement. The contents of the top shelves are now easier to reach than the bottom shelf of the wall unit.

The smooth, fluid downward movement is activated by the pull-down plus the weight of the payload. At the endpoint the pull-down locks open automatically, so that you can use both hands for loading and unloading. iMove movement is supported by spring force resulting in a weight capacity of 8kg. The mechanism is integrated in a slim and very compact fitting so that an iMove can also be installed in a relatively shallow wall unit.

iMove is a winner of the coveted IF Product Design Award.

The weight of the contents assists the downward movement. At the same time, spring force is accumulated for the upward movement.

The railing drops down automatically as the fitting moves downwards - making access even easier.

The spring assisted upward movement requires only minimal effort from the user.

A WALL UNIT FOR EVERY SITUATION.

The iMove product family is available in two wall unit widths of 600 and 900 mm. The iMove family offers a choice of models (single or double) with either one or two shelves. iMove single covers wall unit heights from 470 mm with no upper limit and iMove double is for wall units from 710 mm high. iMove is the perfect fit for every wall unit.

PRODUCT FEATURES:

- > Ergonomically shaped handle
- > Effortless movement
- > Drop down railing
- > Locks gently in and automatically in stop position
- > No spring force adjustment required
- > Easy installation
- > Minimal effort

iMOVE SINGLE TRAY

Note:
Installation dimensions differ for hinged door and lift fitting.
Please refer to installation instructions.

Supplied with:
8 Wood screws
1 Drilling template

Features:

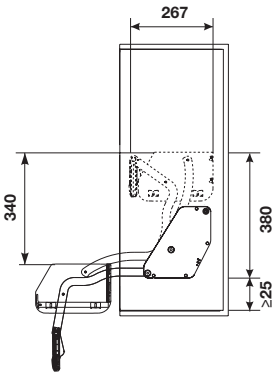

No adjustment required
Easy lowering and effortless raising
Tried and tested mechanisms
Finger pinch protection
Simple installation

Load capacity (kg):

8

Carcase width (mm)	Inside width (mm)	White finish	Silver finish
600	562-568	504.68.613	504.68.913
900	862-868	504.68.615	504.68.915

Packing: 1 piece

iMOVE DOUBLE TRAY

Note:
Installation dimensions differ for hinged door and lift fitting.
Please refer to installation instructions.

Supplied with:
8 Wood screws
1 Drilling template

Features:

No adjustment required
Easy lowering and effortless raising
