

HÄFELE

KESSEBÖHMER PROJECT RANGE

Opening up new opportunities.

KESSEBÖHMER PROJECT RANGE

Optimal organisation for your kitchen.

THE PROJECT RANGE 2015 IS THE WORLD FAMOUS
COMBINATION OF HÄFELE AND KESSEBÖHMER,
BUT MAYBE NOT AS YOU KNOW IT ...

Häfele and Kesseböhmer have been synonymous with the supply of the highest quality kitchen storage solutions for discerning New Zealand kitchen manufacturers for more than 25 years. The highest levels of quality, functionality and innovation have always been front of mind throughout the development process for any products which carry the Häfele or Kesseböhmer names.

In many projects, both large and small, price competitiveness is a key consideration and may require the premium levels of finish and functionality to be seen as an unnecessary luxury. However, seeking a more economical product solution should never be done at the expense of the overall product quality.

It is with this aim in mind that Häfele and Kesseböhmer have collaborated in the creation of "The Project Range 2015". Contained within these pages you will find a specially selected range of products that are designed to provide the most cost effective, German-produced, high quality kitchen storage solutions for any sized project you may be working on.

In one easy movement.
