

SAG Locking Systems

offering three dimensions of locker locking

SAG Locking Systems

The storage of clothes, personal belongings and valuables - without key problems - this is what SAG offers. The three locking systems that fit all dimensions of efficient locker organisation.

Multi Function

SAFE-O-TRONIC® Transponder lock

The transponder takes over the function of the key (e.g. as a card or wristwatch) and offers additional turnover from spontaneous purchases (e.g. sales of food or drinks).

Independence

SAFE-O-PIN® PIN-code lock

The keypad lock for memory aided locking eliminates the need for keys or data carrying cards and liberates you from key handling and staff costs.

Self Service

SAFE-O-MAT® Twin coin deposit and multi use locks Coin insertion reduces staff costs for key administration and generates additional profits if the locks are set for coin collect.

SAG Locking Systems

The Complete Program of Intelligent Locking Systems from Häfele

Digital • Memory aided • Analogue

LOCK

FUNCTION

OPERATION

SYSTEM

FEATURES

Patented transponder locking system

Transponder lock

Electronic, no wiring

Multi Function

Digital locking device

- Free from wear through contact free transponder technology
- Can be programmed easily and flexibly
- Can be integrated with data systems for access control and cash-less payments
- Battery life: 30,000 40,000 cycles

2

SAFE-O-PIN® PIN-code lock

Key-less, memory aided locking system

Electronic, no wiring

Independence

The keypad lock for memory aided locking

- Key-less locking just enter pin number
- No cost for staff because the labour for key handling has vanished
- No consequential cost for lost keys or cards
- Battery life: 30,000 40,000 cycles

3

SAFE-O-MAT®

Twin coin lock

Deposit and Coin collect locks with 2-coin insertion or as ticket/coin lock

Mechanical

Self Service

with analogue locking device

- Reduction of staff costs through self service and coin choice
- Protection against key loss and liability risks
- Optional coin collect function for higher profits and more convenience: The user can open the locker as often as wanted without paying again

SAG Locking systems offer more flexibility in the management of several types of facilities

- Lockers and safes in leisure, hotel and fitness projects.
- Storing facilities in universities, libraries museums, event/concert halls.
- Lockers and safes in shops or shopping centres.
- Employee lockers in administration, industry and hospitals.
